Hi Carter,

Just wanted to let you know that I had a chance to review the FS new draft Springs, Seeps, and Riparian Areas chapter and have significant concerns with their new approach. Let me know once the confere3nce call with the FS is rescheduled.

Thanks,

Rob

**Categories:** Blue Category

Hello Chris,

Thank you in taking the time to taking with me and Elizabeth and for sending this along; it has proved helpful in our ongoing discussions with the Corps. I was talking to Julia Fonseca today about the availability of historical images of Pantano Wash below the dam and she believes that Pima County Flood Control might have photos from the 1930s-1960s scanned and available. We would be interested in getting these photos, perhaps electronically, if available.

I realize that you have new duties now and are very busy. Perhaps you know of a contact with Pima County that might be able to assist us?

Thanks again,

Rob

Elizabeth – Attached is the latest plan for this proposed ILF site as discussed this morning.

Please let me know if questions and also please confirm receipt of this due to its fairly large size. Thanks, Chris
